SEEING YOUR VOICE IN ACTION ...

The Australian Voice Association (Victoria) is delighted to present this workshop and seminar on laryngeal endoscopy and stroboscopy. This practical session is for everyone who works with voice: speech-language pathologists, voice teachers, choir directors, singers, actors and all voice users.

Take an exciting guided visual tour through how the voice works and how to care for it, **even volunteer to be scoped yourself!**[^]

AVA (Victoria) is proud to present this fantastic workshop in collaboration with the Melbourne Voice Analysis Centre.

[^] Volunteers for endoscopy will be accepted in order of registration. Register early!

PROGRAMME

😊 with live endoscopy of a volunteer

9.45am Sign in

10.00am Endoscopy and the voice

😊 Malcolm Baxter, Jenni Oates

- A basic overview of endoscopy and explanation of anatomy and function.
- When might surgery be recommended, when not?
- Common medical interventions for voice management

10.40am Physiotherapy and the voice

😊 Malcolm Baxter, Annie Strauch

- When would physio be helpful for vocal problems?
- What sort of treatment is used?
- What sorts of exercises are used for what sorts of situations?
- What are the current philosophies for use of physio for voice problems?

11.20am 20-minute break
